# *An Invitation to You*

Our catalog this year features many new listings of top quality bulbs — bulbs that, growing in your garden, will produce flower spikes to make you the envy of your friends and neighbors. We call particular attention to two new collections at attractive prices.

Again Glad Morgan and the other friendly folks here at Seabrook Nurseries extend to you a cordial invitation to stop at our Nurseries next summer and see hundreds of thousands of gladiolus in full bloom. No words can describe this sight of breath-taking beauty! Most visitors in July, August, and September 1953 were particularly interested in our trial gardens where many unnamed varieties — the glads of the future — are being developed. Seabrook Nurseries are on the main line of vacation travel, U. S. Route 1, near the Massachusetts state line.

The new irrigation system installed last year has enabled us to improve our cultural conditions so we can now furnish you with even better bulbs than before. We have expanded our acreage to insure bigger supplies of wanted varieties. We still urge you to place orders early in order to avoid disappointment. Of course, your glads will be shipped to you whenever you stipulate.

We are proud of the various awards won in 1953 shows, such as the Distinguished Merit Award at the New England Gladiolus Show, and a special award for a basket of Barbara Dee, hybridized here at Seabrook Nurseries. We are, however, even more proud of the unsolicited letters of enthusiastic comment from you, our customers, on the manner in which our bulbs have bloomed in your gardens. We thank you.

Cordially,

*Seabrook Nursery Folks*

### **THE ORCHID (EM) Sprague**

Fittingly named. A new break resembling no other variety in form. A single floret worn as a cattleya would readily be mistaken for one a few feet distant. Long narrow ruffled and lacinated petals of very pale lavender flecked towards the ends with lavender pink.  
L 10-\$2.00, M 10-\$1.00, S 10-50c, B 100-75c.

### **VOODOO Kadel (486) (M)**

A distinctive and beautiful smoky with stippling of bronze and plum. Several 5 inch needlepoint blooms open. In big demand.  
L 2-25c, 10-\$1.00, M 3-25c, 10-60c.

### **WHITE GOLD (E) Scheer**

Mammoth cream blended to gold in throat. 7 inch florets, heavy substance, well placed on tall spike.  
L 3-25c, 10-80c, M 4-25c, 10-50c, S 10-25c, B 100-25c.

### **YANGTZE Harris 41 (312-87)**

A deep empire yellow of good size. A first class grower that is very popular in Canada. This is one of the best low price yellows. Very fine.  
L 2-25c, 10-\$1.00, M 3-25c, 10-60c.

### **YELLOW HERALD K & M 47 (411-70)**

Certainly the best early yellow. Opens 8 on a tall spike. Has a nice ruffling and is one that we recommend for all cut flower growers.  
L 2-25c, 10-\$1.00, M 3-25c, 10-60c.

### **ZEB (EM) Rowe**

White with feathery purple blotches on lower petals, and when wide open, has a beautiful lavender cast all over, which gives it a marked distinction. Ruffled, a good propagator and germinates well. It is quite early, blooms in about seventy-two to seventy-five days, stands up well in hot weather.  
L \$1.00 Each, 10-\$8.00, M 75c Each, 10-\$6.00, B 100-\$1.00.

If this should occur we will make every effort to reach a satisfactory settlement with you, our customer.

Our business has been built on satisfied customers and we want to continue to merit your satisfaction.

The bulbs you harvest, we are unable to guarantee. Unsatisfactory growing conditions or disease in your soil are beyond our control.
